Sunshine Skyway Fishing Piers
Construction Maintenance Project

Starts: May 18, 2015

Estimated completion: Summer of 2016

Contractor: Inland Construction and Equipment

Cost: $5.1 million

Locations: Sunshine Skyway Fishing Piers in Pinellas and Manatee Counties.

Project description: Construction activities at each fishing pier include concrete restoration of the existing railings, repairs to bridge decks and support, beams and foundation. Work may occur at the same time at more than one location throughout the duration of this project.

Impacts to fishing pier users: To provide a safe work environment for both workers and fishing pier guests, sections of each fishing pier will be closed to recreational use during working hours. Crews will travel by barge and boat to perform work underneath each pier, while remaining workers will access the top surfaces by the roadway entrance. Entrances to fishing piers will be maintained.
