

Florida Bicycle and Pedestrian Partnership Council

Charge

The Florida Department of Transportation (FDOT) has established a standing statewide “Partnership Council” on bicycle and pedestrian mobility. The Council includes key partners and other stakeholders. The Council will promote the livability, health and economic benefits of bicycle and pedestrian activity by serving as a forum to provide guidance to the FDOT, its partners and other stakeholders on policy matters and issues affecting the bicycle and pedestrian transportation needs of the State of Florida. The Council’s functions include the following:

- Provide policy recommendations to bicycle and pedestrian partners and stakeholders, including FDOT, on selected issues of importance to the bicycle and pedestrian community.
- Provide advice and input to bicycle pedestrian partners and stakeholders, including FDOT, on bicycle and pedestrian issues, plans and operations.
- Support bicycle and pedestrian advocates in identifying and promoting best practices.
- Provide an opportunity for bicycle and pedestrian advocates to exchange and understand policy information relevant to the bicycle and pedestrian community.
- Provide a conduit for information and policy recommendations between FDOT and its partners and the bicycle and pedestrian community.

The Council will be a standing body. It will identify focus areas for recommendations and best practices on a yearly basis. Focus areas, best practices and recommendations will normally be organized consistent with the “4 Es” (education, encouragement, enforcement, engineering) and funding.

The Florida Bicycle and Pedestrian Partnership Council functions also include facilitating increased coordination and collaboration by advising the FDOT, partners and stakeholders on all transportation planning and safety activities, including the Florida Transportation Plan (FTP). The Council will report annually on the Council’s discussions and policy recommendations for that year’s focus areas.
