

# A1A RECONSTRUCTION TO 6 LANES NASSAU COUNTY Project Overview

---

## NEEDS ASSESSMENT

A1A (State Road 200) from the Interstate 95 interchange to east of County Road 107 (Scott Road) in Nassau County is a major east-west corridor which is experiencing significant congestion due to commercial and residential growth along the corridor. This section east of I-95 is also designated as an Emerging Strategic Intermodal System (SIS) Connector which links the interstate system to the Port of Fernandina, the Fernandina Airport and the railroad service through the port connection. This section needs to be widened to six lanes to meet capacity requirements and to maintain positive economic and social growth in the Nassau County.
