III. Establish Subcommittee Goals / Objectives
GOAL – Revise Chapter 11 of the Florida Greenbook to prepare Temporary Traffic Control (TTC) Plans that reflect requirements of the current editions of the Manual on Uniform Traffic Control Devices and FDOT Design Standards.

OBJECTIVES –
A) Review the current FDOT Design Standards and identify issues that should be included in the Greenbook (provided the issue is part of the current MUTCD).
B) Develop revisions that are helpful to the user in that they do not create a Chapter that requires continual revision as MUTCD or FDOT standards are modified, but still offers more guidance to users to create effective TTC Plans.

IV. Notes or specific assignments from the meeting
A. (All) Proposed revisions should follow the spirit of the Greenbook, in that they do not restate the MUTCD (requiring revision as the MUTCD updates), establish minimum requirements that will apply to all county and local roads.
B. (All) no changes are needed regarding personnel training, as this issue is already covered in the MUTCD
C. (Allen) Clarify the language as appropriate. Specifically, Sections D.3 may need additional text to better define the intent of each bullet item (for example, What does “Access” to?). A second item is to make sure the Greenbook revisions conform to the terms in the MUTCD (“shall”, “should”, & “may”).
D. (Allen) Review the MUTCD provisions with regard to each bullet item in the March 12, 2007 memorandum and consider revising Greenbook as necessary to be consistent with current MUTCD. Prepare a support memorandum.
E. (Cheryl) Draft language that incorporates the requirements of the latest CFR 23. Primarily, this means that if a project is to receive federal funds, then additional requirements must be observed.

F. (Amy) Draft language that addresses concerns about pedestrians, particularly those that may use transit facilities in the work zone.

G. (Allen) Contact Mr. David Kuhlman, FPL to make him aware of the subcommittee’s effort, and obtain a commitment as to his level of participation.

V. Next Meeting - July 19, 2007 from 3:00 PM to 5:00 PM. Teleconference details to be posted.
