Summary of Changes
May 2011 Edition

MANUAL OF UNIFORM MINIMUM STANDARDS
FOR DESIGN, CONSTRUCTION AND MAINTENANCE
FOR STREETS AND HIGHWAYS
(Commonly known as the "Florida Greenbook")

User Registration Form
- Removed reference to old user database.

Table of Contents
- Added Chapters 18 and 19.

Greenbook Committee Members
- Updated Committee member information.

Chapter Subcommittees
- Updated Chapter Author information including those for new chapters.

Chapter 3 Geometric Design
C.7.b Revised to clarify minimum sidewalk width is 5 feet.
C.7.j.4.b Revised to include vertical clearances for pedestrian bridges, and bridges over railroads. The minimum vertical clearance over freeways and arterials was revised to 16.5 feet.
C.10.a.3 Corrected maximum cross slope from 0.02% to 2.0% and revised to reference Section C.7.b for minimum sidewalk width.

Table 3-11 Updated note to include raised medians.

Chapter 6 Roadway Lighting
E. Updated section to address consistency in lighting and lighting at intersections.
H. Revised redundant terminology reference to “frangible” since section already addresses “breakaway” light poles.

Chapter 8 Pedestrian Facilities
General: This chapter was updated to provide improved guidance on pedestrian facilities.
A. New Introduction places more emphasis on the consideration of pedestrian facilities.
B. New section identifying different types of pedestrian facilities.
C. Updated to include more provisions that minimize vehicle-pedestrian conflicts.
C.3.a Updated to clarify the pedestrian path location criteria.
C.3.b This new section contains information on buffer width and references Chapter 3, Section C.7.b for minimum sidewalk width.
C.4 Updated to include other considerations that minimize vehicle-pedestrian conflict points.
D.1 Updated to address consideration of sight distance near intersections and driveways.
D.2 Minor updates for clarity.
E.1 Updated to address minimum clear height of a pedestrian over/underpass and the minimum clear width of the path.
E.2 Minor updates for clarity.
F. This section has been renamed Pedestrian Crossings and rewritten to identify different types of pedestrian crossings and associated features.
G. New section containing additional references related to pedestrian facilities.

Chapter 9 Bicycle Facilities
General: This entire chapter was updated to provide improved guidance on bicycle facilities.

Chapter 11 Work Zone Safety
General: This chapter was updated to be consistent with the Federal Rule for Work Zone Safety and Mobility (Title 23 Code of Federal Regulations (CFR) 630 Subpart J).
A. Updated to address incident management.
B. This new section provides background information on this chapter
C. Updated to address the Americans with Disabilities Act
D. Updated to refer to the Federal Rule for Work Zone Safety and Mobility.
E. Updated to address pedestrians, bicyclists and transit passengers, incident management, work zone access, access to adjacent properties, and coordination with businesses and school boards.
F. Updated to address transit agency notification.
G. Updated to include utility operations.

Chapter 17 Bridges and Other Structures
C.4.a Updated to change the approval authority to the District Design Engineer
D. Updated to correct the position title of the District Structures Maintenance Engineer.
E. Updated to correct the position title of the District Structures Maintenance Engineer.
J This list of references used in the preparation of the chapter has been updated.

Chapter 18 Signing and Marking
General: New chapter addressing Signing and Marking requirements.

Chapter 19 Traditional Neighborhood Development (TND)
General: New chapter addressing requirements for TND.
