

WALK SAFELY

- **Cross streets at crosswalks.**
- **Walk on sidewalk**
- **If there are no sidewalks, walk on shoulder facing traffic.**
- **Watch out for all moving vehicles.**
- **Make eye contact with drivers of turning vehicles.**
- **See and be seen.**

*Your Community
Traffic Safety Team*

Your Florida roads are important thoroughfares for motorists, bicyclists and pedestrians.

Because they are so heavily traveled, dozens of traffic crashes happen every day, costing lives and property. The high crash rates have prompted this campaign to improve driving in your area.

Your CTST (Community Traffic Safety Team) will be making numerous road improvements in the coming year. During this time, local police will increase enforcement along these highways as well.

But we need your help! A majority of the crashes on Florida roads are caused by driver error. On the back of this flyer you will find some useful tips that can help make your trip pleasant and safe.

Please observe these traffic tips and help us prevent crashes.
